

## Built to **IATA** Specification

All our pet kennels are designed to meet the IATA's Live Animals Regulations (LAR) – the worldwide standard for transporting live animals by commercial airlines. The objective of the LAR is to ensure all animals are transported safely and humanely by air.

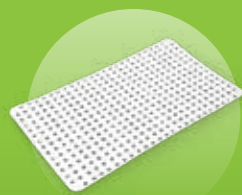

## **PET PALACE** 30 YEARS OF BUSINESS

Our pet kennel business began 30 years ago in Melbourne, Australia, with only a single small size plastic pet kennel specifically design for airline pet transportation.

Today, we have over 10+ sizes of kennel where they are built to IATA specifications.

## ACCESSORIES

With our Raised Floor, Funnel and Water bowl.

### Raised Floor

keeps pets separated from urine passed during the flight.

### Funnel

allows airline employees to replenish the water bowl without the need to open the wire door.

### Water bowl

hooks on securely to all metal wire carrier doors.

## **PET PALACE**

Safe, comfortable and clean international travel for pets to anywhere in the world.

# 10+ SIZES

INCLUDING  
THE WORLD'S LARGEST  
PLASTIC PET KENNEL

Our kennels are widely used by major pet transporters worldwide and are accepted by major Commerical Airlines.

### UNIQUE FEATURES:

## Most Durableand Tough In the Market

We are the leading company in Asia, partnering with an Australian company specialize in design and manufacturing of pet kennels for transportation usage. We offer the largest range of pet kennels that are built to IATA specifications. Our pet kennels are widely used and accepted by major Airlines in Australia. While our partners focus in distribution in Oceana region, our focus will be expanding the business into other part of the world.

# SIZE CHART

It is important you purchase the right sized container for your animal.  
Airlines use the following indications to ensure the animal has enough space to:

- turn about normally while standing
- to stand and sit erect
- to lie in a natural position.
